Litigation Creative Services • Trial Graphics & Demonstratives • Executive Presentation Design

Highland Park, IL • Hybrid / Chicago • (847) 338-8208 • a.james.donnelly@gmail.com • [visual portfolio](#)

## SUMMARY

Litigation professional and visual communicator with fifteen years inside law firms and graduate training in visual art, design, and biomedical visualization. I help trial teams find the case theme and turn complex records, medical evidence, and financial and technical material into clear, persuasive demonstratives, and I design executive and firmwide presentations for firm leadership. I combine litigation judgment and legal fluency with design skill, project and vendor management, and a practical understanding of how evidence is prepared and presented at trial and to senior audiences.

## CORE CAPABILITIES

- **Trial graphics & demonstratives:** case-theme development, exhibit and demonstrative design, evidence-presentation consulting, and quality control against the record.
- **Executive & firmwide presentations:** leadership and partner-meeting decks, brand-consistent design, and distilling complex information for senior audiences.
- **Project & vendor management:** directing and procuring graphic projects to deadline, coordinating outside specialists, cost containment, and stakeholder alignment.

## EXPERIENCE

### Hall Prangle LLC — Chicago, Illinois May 2025 – Present

Senior Litigation Paralegal • Medical-Malpractice Defense

- Develop demonstrative concepts and exhibits and prepare materials for depositions, mediations, expert work, and trial.
- Collaborate with attorneys and experts on how to present complex medical evidence clearly and persuasively, and quality-check all materials against source evidence.
- Analyze medical records and build medical chronologies and witness timelines in complex, high-value matters.
- Coach and train colleagues and manage multiple high-pressure assignments to deadline.

### Law Offices of Michael M. Mulder — Chicago, Illinois 2013 – 2025

Litigation Paralegal & Firm Operations

Formerly Meites, Mulder, Mollica & Glink (through 2016).

- Ran day-to-day firm operations: project management, technology selection and procurement, vendor relationships, and cost containment across billing and case-management systems.
- Designed firm communications and executive and leadership presentations, and produced diagrams, timelines, and brand and website materials over multiple years.
- Supported complex federal and appellate litigation: developed case themes and factual narratives, briefing and record support, and trial and hearing preparation in close collaboration with attorneys.
- Organized and analyzed very large records (approaching one million pages) into clear summaries, chronologies, and visuals.

## BIOMEDICAL VISUALIZATION & DEMONSTRATIVE RESEARCH

### M.S. in Biomedical Visualization, University of Illinois Chicago Graduate research

- Research how different demonstrative forms, oral testimony, two-dimensional imaging, three-dimensional digital models, and physical 3D-printed models, affect how well jurors comprehend complex surgical evidence.
- Build medical-legal and procedural demonstratives from medical imaging, segmentation, 3D modeling, and additive manufacturing, in collaboration with physicians, medical illustrators, and legal professionals.

## SOFTWARE & CAPABILITIES

- **Design & presentation:** Adobe Creative Suite (Photoshop, Illustrator, InDesign); Cinema 4D; PowerPoint and Keynote; 3D modeling, rendering, and 3D printing.
- **Litigation:** demonstratives and exhibits; medical-record analysis, chronologies, and timelines; deposition, mediation, arbitration, and trial preparation; plaintiff- and defense-side experience.
- **Management:** project management, vendor coordination and procurement, cost containment, and stakeholder and client collaboration.
